

SHIRAZ BUKSH

FULL-STACK DEVELOPER (JUNIOR)

Auckland, New Zealand | shiraz19@live.com | Portfolio | GitHub

PROFILE

Full-stack developer with hands-on experience building and shipping a live SaaS product using React, Next.js, Node.js, and TypeScript. My background in high-pressure, customer-facing airport operations gives me a strong instinct for UX and user empathy that most junior developers lack. Comfortable working across the full stack to write clean, scalable code. Fast learner, and I leverage AI-augmented development workflows to research, debug, and ship high-quality work efficiently – consistently punching above my experience level.

PROJECTS

Revo | E-commerce Ticket SaaS @ therevoapp.com

Live product – private repo

Next.js · TypeScript · Prisma · PostgreSQL · REST APIs · Tailwind CSS

- Built a full-stack SaaS app that automates customer support tickets via a clean admin interface.
- Developed secure server-side API routes using Next.js and TypeScript. Integrated third-party webhooks and background jobs for async event-driven workflows.
- Designed scalable relational data models using Prisma ORM and PostgreSQL.
- Built fully responsive UI with React and Tailwind CSS.

3D Portfolio Website @ shirazbuksh.github.io/portfolio

React · Vite · Tailwind · Three.js · React Three Fiber · Framer Motion · Tailwind CSS

- Built an interactive 3D portfolio with smooth animations using Framer Motion and React Three Fiber, with performance-optimised asset loading.
- Fully responsive with reusable React component architecture and Tailwind Merge.

SKILLS

Languages:	JavaScript, TypeScript, SQL, HTML5, CSS3
Front-End:	React.js, Redux, Tailwind, Next.js, Framer Motion, React Three Fiber, Three.js, Vite
Back-End:	Node.js, Express, REST APIs
Databases:	PostgreSQL, SQLite, Prisma
Testing:	Jest, Unit & Integration Testing
Other:	GitHub, Agile, Scrum, Problem-Solving, Background Jobs, Event-Driven Workflows

EXPERIENCE

Full-Stack Developer | Trainee

Jan 2023 – May 2023

Dev Academy Aotearoa

- Completed an intensive full-stack development program covering React, Node.js, JavaScript, REST APIs, and SQL databases.
- Built multiple end-to-end projects using modern web development practices.
- Collaborated using agile workflows, version control, and code reviews.

Shopify Store Developer | Freelance

2025 – Present

- Designed and launched a Shopify store for a client, managing the full project from the initial brief through to post-launch support – first experience owning a client engagement end-to-end.
- Handled client communication independently, translating non-technical requirements into a working solution and demonstrating reliability and professionalism throughout.

Customer Service Agent

2025 – Present

Air New Zealand

- Managed high-stress, time-critical customer interactions in a fast-paced airport environment.
- Developed strong communication, empathy, and problem-solving skills directly applicable to UX decisions and user-facing product work.

EDUCATION

Certificate in Applied Software Development | Dev Academy Aotearoa (2023)
